### **EDITORIAL**

#### **Are Patriots Militias or PACs**

We are beginning to wonder,  
after much observance,  
whether the Patriotic  
movement is becoming too  
politicized.

It seems to us a number of state  
militias and their members hold  
on to the erroneous assumption  
that Globalism can successfully  
be dismissed through the  
political process.

We constantly hear talk of  
electing *friendly* officeholders  
as a means of restoring our  
Constitutional rights.

***Nothing*** could be further from  
reality! Need we remind you all  
politicians are *friendly* until in  
office-whereas they fall prey to  
the double-edge temptations of  
power and money.

Many militia members believe  
in using the political process  
and the courts to further the  
Patriotic cause. They base this  
belief on the accurate premise  
that they are correct about  
Constitutional law; and *they  
are correct!* Problem is; the  
World Order Government and  
Courts *don't care!*

Foolishly, some Patriots believe  
this fight involves right and  
wrong. *It doesn't!* The ZOG  
already *knows* it is wrong-and

Patriots are right-*they do not  
care!* This fight is about power,  
nor correctness.

Patriots and Militia members  
believing in systematic change  
through the ballot box will be  
casting their votes at buildings  
surrounded by Blue-Helmeted  
UN World Police.

John Trochmann correctly  
states the rift between the  
government and Patriots will  
reach its apex within two years

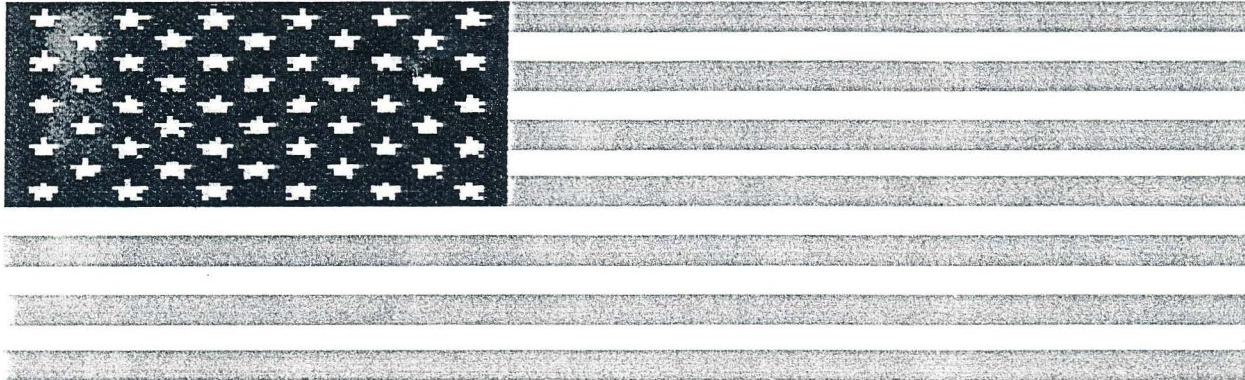

Colony News wrote about the  
same scenario in its April 96'  
Edition titled: *1996-America's  
Last Election*.

Militias following a political  
course fall into the well-  
planned hands of the elite  
establishment. The political  
process is *their playing field*,  
where *they* make the rules. It is  
naïve folly to believe *anyone*  
can compete with the World  
controlled government on their  
terms.

The ZOG, currently headed by  
Clinton or Dole, is a *proven*  
liar, murderer and slaughterer  
of women and children.

We ask the question? What  
Patriot could possibly wake up  
in the morning and believe he  
could *deal* with such power  
consuming murdering thugs?

Patriots would be better served  
preparing their defenses.

## 1776-1996 - Two Hundred Twenty Years Losing Independence

The signers of the Declaration of Independence, whose obvious intent was shared government between the Executive and Legislative branches, would require shock therapy treatment if they were to return to America on July 4, 1996.

The Founding Fathers would be positive the United States they left behind had finally been re-captured by Tyrannical King George.

Lets discover how, under the guise of American political policy, this once land of the *Free* has become the land of the *Enslaved*.

The sheeple which constitute the vast majority of U.S. citizens have lost, over time, the following freedoms:

*Freedom of Speech.* Under the ruse of political

correctness and hate speech, Americans have silently sacrificed all rights to a public discourse on topics of their choosing. Race and religion have been offered as the excuse to excise the dictionary. Disagreeing oral or written words regarding the state of government is rapidly being defined as *hate speech*, thereby censoring all forms of speech. Indeed, the word *Constitution*, uttered aloud now has the connotation of 'extremism.' Mention of the very *document* that created America is now associated with 'terrorists' as if we who profess love for that document were foreigners-not country loving citizens.

*Right to Bear Arms.* The past 60 years especially have been dominated by an un-ending government

campaign of American *disarmament*. First it was 'machine guns,' then 'handguns,' then 'rifles' under the created term of 'assault rifles.' George Washington helped found this nation with the Flintlock as his companion.

*Right to own money issued and backed by the U.S. Government.* Americans once again looked the other way as their tangent means of survival, money, was confiscated and replaced with a Mythical Independent Foreign (its not Federal) Reserve Note NOT redeemable by the U.S. Government. During the course of this century Americans have had their 'real' money replaced with the equivalent of 'monopoly money.'

*Freedom of Religion.* It is now unconstitutional to publicly display or pronounce your religion. Schools are prohibited from prayer in a nation whose Constitution was founded upon God, whose currency displayed the term: In God We Trust. America has become the land of heathens, atheist and non-secular denominations.

*Freedom of Privacy.* Government searches of one's possessions is now rule of the land. Citizens traveling via auto are routinely demanded upon to produce Identification; since the 30's a citizens social security number has become his passport to employment, driving, banking and a host of other intrusive actions. Conversations are monitored, remote cameras now spy on citizens in many locations. Airports demand picture Id's. Under the guise of 'drunk driving prevention' motorists are routinely stopped, identified and harassed. Government agents pick through one's garbage for manufactured evidence. Citizens are encouraged to spy and report on each others activities. Fingerprints have been required on all newborn citizens for a long time, but this is soon to be replaced by DNA screening. Property is confiscated and homes broken into in the middle of

the night in the name of 'drug interdiction.' Again , Americans, dumb as ever, tolerate all this in the name of 'protective government.'

*Freedom of Education.* Parents choice of schooling has been replaced with forced bussing, thereby granting the state (compelled by Federal policy) the decision making process of suitable educational environment for their children. State sponsored curriculum has replaced local educational values. Using the ruse of integration the government has forced minority and alternative (fags) lifestyles upon impressionable children. Dyke female and faggot male teachers are encouraged to enter the educational ranks. Books such as "Johnny has two daddy's" are distributed and promoted to young school children. Social sensitivity classes have replaced the three R's.

*Freedom From Standing Armies.* Despite no act of war in effect, America is occupied by an internal standing army -its own. The Constitution expressly prohibits U.S. standing armies during time of peace, except if Congress declares a 'national emergency;' which has been the case for two centuries. The departments of Navy, Army,

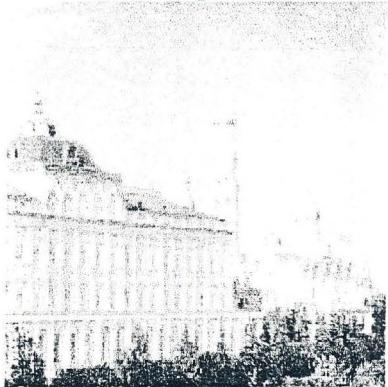

Air Force and Marines are Unconstitutional during times of peace.

*Freedom From Unnecessary Edict.* For two centuries our nations Chief Executive, the President, has been circumventing the legislative process of the Constitution via the issuance of "Executive Orders." President (drug smoking liar) Clinton has signed over 1100 executive orders in just the past three years; effectively circumventing the legislative process and will of the people. President's consistently order young men and women into foreign excursions without the consent of the American people or Congress. Executive Orders suppress the will of the Supreme Court, Congress, and the citizens of the nation.

*Freedom From Tyranny.* America's latest President, Clinton, rules as if he controlled a monarch. Americans have a right to be free of King Bill I of America.

Note: We are sure our readers have substantial lists regarding loss of our freedoms. We were constrained by space considerations but would be interested in publishing your views and instances on this subject. This 4<sup>th</sup> of July should not be celebrated, it should be mourned.

## Is Clinton Russian-Mossad Agent?

By: Michael Devlin

During the height of the Vietnam War in 1967-68, a young Rhodes Scholar, sponsored by David Rockafellar, named Bill Clinton openly displayed his opposition to the Asian War by leading and organizing anti-American demonstrations throughout England.

During this period also, Bill Clinton was invited to visit Moscow at the then Soviet Governments expense. While in Moscow it is certain Clinton met with high ranking KGB officials, as well as Israeli Mossad agents. The Mossad has always had much closer ties with the old Soviet Government than anyone in America realizes due to their dual fear relationship of Germany.

In fact, during the Cold War the Mossad was much more aligned with the Russian view of Germany

then Americas despite public rhetoric quite the opposite. Both Israel and Russia have always been vehemently opposed to the reunification of the two Germany's. It was the projection of American wealth and power that led directly to reunification.

Israel , to this day has done everything within its power to prevent the breakup of the Soviet Union; preferring Moscow control over the many Muslim Nation States sure to become independent.

This secret agenda caused quite a dilemma for Israel, who historically have sided with United States policy-at least publicity. Israelis problem with this issue was worsened even more with Reagan and Bush's insistent determination to dismantle the Soviet Union and reunify the two Germany's.

But time and history were on the long term planning Israelis side:

What only the Mossad and KGB have known for decades was the secretive control these deadly spy organizations have held on Bill Clinton.

Is it blackmail for career ruining activities during the sixties? Or is just Clinton's socialistic policy agreement with two of the most socialist states on earth? There is no clear answer as to which of the above is the case; however, it is clear that

the carefully scripted career of Bill Clinton ever since that infamous Moscow rendezvous has been paved with intrigue, outside assistance, money and even suspicious acts of murder reminiscent of the Mossad and KGB.

A further look into Clinton's well planned government career also provides an ever increasing payback, or reciprocal policy towards Israel and Russia. A close examination of Clinton's Cabinet appointees since he assumed the Presidency shows the following:

The CIA under Clinton is headed by John Deutch, the Deputy Director is George Tenet, the Director of Operations is David Cohen and the Executive Director is Nora Slatkin; all Israelis. It is as if the CIA and Mossad have merged; in fact unbeknownst to the American Public they probably have.

Five of Clinton's top seven advisors are also Israelis;

Robert Reich, Ira Magaziner,

Robert Shapiro, Samuel

Berger and Michael

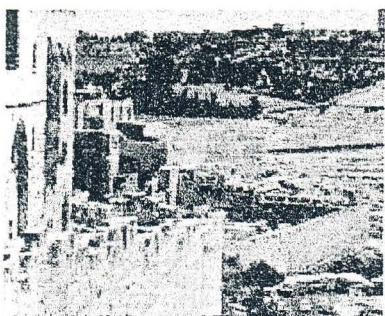

Mandelbaum.

Clinton's Cabinet consists of

Robert Rubin, Secretary of Treasury, Dan Glickman,

Secretary of Agriculture,

Mickey Kantor, U.S. Trade Representative,

Ellen Haas, Asst. Education Secretary, Peter Tarnoff, UnderSecretary of State, Madeleine Albright, UN Ambassador, Alice Rivlin, Deputy Budget Director, Stephen Breyer, Supreme Court Appointee, Richard Holbrooke, Asst. Secretary of State, and Laura Tyson as Head Economic Advisor.

In all, some 70% of Clinton's political appointees and Cabinet positions are held by Israelis.

Piecing together Clinton's past meetings with the Russians and the Mossad during the Sixties with the highly abnormal number of Israeli's holding power in Clinton's Washington Government, we are beginning to assume whatever took place in Moscow; *payback* time has arrived!

Even more troubling are the many suspicious deaths that have followed Clinton from the Governor's office in Arkansas to the White House. Many of these deaths, especially Vince Fosters; smack of Mossad style executions. The recent death of ex-CIA director Colby,

who it can be assumed, knew much, also has trails of an Mossad operation.

The question now becomes; is Bill Clinton, the President of the United States of America, a Russian-Mossad infiltrator or Mole?

We have researched this premise for 8 months at Colony News. We did not take on this task lightly. We interviewed dozens of people in the know. We carefully investigated each name and rumor, separating hearsay from fact. These are the undeniable facts:

Clinton's strongest political and financial supporters are the National Television and Print Media, along with Hollywood.

The President of CBS is Howard Stringer and the Entertainment division's head is Jeff Sagansky. ABC is headed by Leonard Goldman with Stu Bloomberg as head of Entertainment. NBC's President is Leonard Grossman with Irvin Segelstein as Vice-President. All of the above Clinton supporters are Israelis.

Columbia Pictures and Tri-Star Films are run by Jon Peters and Peter Gruber. Universal Pictures is headed by Lew Wasserman, with it's President being Sidney Sheinberg. Paramount Pictures is headed by Mel Harris, Martin Davis and

Deborah Rosen. Barry Diller is President of Fox-TV. All of the above Hollywood studio heads, and ardent supporters of Bill Clinton are Israelis.

The head of Time Warner, the NY Times and Hundreds of national newspapers and magazines are owned by Israelis.

Why do we point this out? To confirm the connection between the Press's advocacy of Clinton's Presidency and Clinton's probable ties with Mossad, the murdering secret arm of Israeli government.

Morris Dees, the faggot child sodomizing head of the Southern Poverty Law Center, is given unchallenged, unlimited Media exposure by the Israeli dominated Press. Dees all but openly admits his much publicized "right-wing" database is partially assembled with help from the Mossad.

Is it coincidence Clinton can find no one but Israelis to fill his Cabinet and the Supreme Court? Or that Clinton, setting precedent, actively campaigned for the losing Israeli President and Boris Yeltsin, the current Russian ruler?

Is it coincidence everyone knowing anything, and connected with Clinton winds up mysteriously dead?

## The Inside Story On German Air Force Base On New Mexico Soil

By: Richard Struthers

A section of the State of New Mexico no longer belongs to that state's residents; in fact, now, part of New Mexico no longer belongs to the United States of America.

The area ceded to the German Government lies 10 miles west of Alamogordo on Route 70/82. The ceded land/base is part of what was Holloman Air Force Base.

The Germans, who have trained in the American Southwest for years, supposedly because of favorable weather conditions, are also involved in one of the largest war-games exercise ever held in the United States. The exercise is named *Operation Roving Sands*, and mirrors the joint U.S.-British military exercises held in North Carolina recently.

A history of Holloman AFB indicates the base was first

built as a temporary war time facility designed for training British Bomber crews during WWII. Notably, the first atomic bomb (Project Trinity) was exploded on July 16, 1945 in the Northeast corner of the bases bombing range. In 1948, the installation was renamed Holloman AFB in honor of the late Colonel George Holloman, a pioneer in guided missile research.

The base is manned by the 49<sup>th</sup> Fighter Wing, which supports objectives as directed by the Joint Chiefs of Staff. The wing can rapidly mobilize and deploy F-117 Stealth fighters and personnel worldwide. The 49<sup>th</sup> trains German and Taiwan aircrews using the F-4E Phantom.

Holloman personnel were notified in early 1996 they would experience the beginning of a *Beddown* of 41 German Tornado aircraft and 900 German airmen and their families.

The portion of the base utilized by German personnel is off-limits to U.S. personnel and is considered German Territory. The following informational instructions have been provided to all German personnel being assigned to their new base:

Location: 10 miles west of Alamogordo, NM, and 90 miles north of El Paso, TX.

Major Command: Air Combat Command

Primary Weapon System: F-117 Stealth Fighter.

Population served:

Active Duty Officer-579

Active Duty Enlisted-4215

Family Members-9223

Retirees-8,000

Civilian Employees-1,345

Phone No-505-475-7510

Mailing Address-General

Delivery PSC Box 2000, 721 Delaware Ave. Holloman AFB, NM 88330

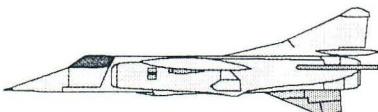

Installation Regulations:

Weapons-All base residents must register weapons with security police. Weapons are defined as : Knives, bows, arrows, crossbows, sling shots, bolo knives, machetes, swords, spears, blank cartridge pistols, blow guns, straight razors, martial arts weapons, paint pellets guns, and BB guns.

*Note:* Spears and sling shots? These folks are 'defenders' of our country?

Traffic: Base speed limit is 30 MPH. Radar detectors not allowed on base. It is permissible to turn right on red in NM. Seat belt are required. Helmets are mandatory for both motorcycle and bicycle riders both on and off base.

*Note:* These folks are training for war-but must wear helmets while riding a bicycle? Oh My God!

**Vehicle Checks:** No required inspection in NM.

**Pass & ID:**

Location-Bld #222

Phone-475-3179

Bring documentation-Marriage license, Birth certificates etc. For car registration you need proof of insurance, registration.

Military spouses are not required to change current driver's license unless they paid employment within the state.

**Major Unit listing:** 49<sup>th</sup> Fighter Wing, Air Combat Command-Commander: BG Bruce Carlson

**Commissary:** Due to influx of German families an expansion of the commissary is planned.

**Must Know Items:** If you do not hear from your sponsor (?) contact Relocation Assistance Program or call Holloman Relocation Assistance Program at 867-7754. When traveling in the American Southwest carry lots of water and be prepared for emergencies. Never leave children or pets in parked car, as temperatures reach dangerous levels very quickly in NM sun. Pavement and sidewalk get very hot and can burn feet.

These are extraordinary , explicit directives for *training* airmen and their families. There can be no doubt the German presence on American soil at Holloman is permanent.

Earl Dickey of the New Jersey Militia, as well as Leroy Crenshaw of the Mass. Militia both hold deep concern considering the base is so close in proximity to Texas, where the re-taken of the state government continues by the Republic of Texas Constitutionalists. Mr. Dickey's fear is that the German base personnel will don UN blue helmets and 'rescue' Texas under the guise of United Nations peacekeeping missions.

The most alarming facet of the establishment of a foreign base as opposed to a training site, is the arrival of German aircraft at the site. Several Patriotic groups Colony News spoke with voiced the concern this was a ploy to accustomize Americans to the sight of foreign troops and equipment within the confines of the United States.

The correlation of U.S.-British, U.S.-German, and U.S.-Japanese war games being held almost Jointly is not by chance..but by design. By wary of this activity.

## Clinton To Restrict Freedom Of Kids To Go Outside

By: Marge Zinther

President Clinton, the drug using hippie from the sixties, and now the nation's number one liar, has said he will sign, by executive order if necessary, (another one?) into law a provision instituting a year around curfew on young people under 18.

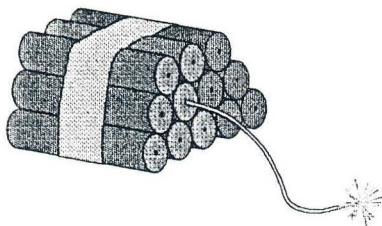

The law, as proposed so far, would limit unsupervised children's activity to the hours between 6PM and 6AM during the school year, and 8PM and 6AM during the summertime.

The exceptions would be for school sponsored activity and if accompanied by a parent or guardian.

The problem with this law is it's blatantly unconstitutional. Kids causing trouble during nighttime hours should be supervised by their parents-not the government.

This is a selective unenforceable law which will further erode compliance by young people to any laws at all.

The ACLU has said it will challenge the new law in court, saying 'this law isn't about kids, it's about Freedom.'

## Is Entrapment Of Starr, McCranie And Kyser Start Of Feds War On Militias?

By: Patrick Dublin

Colony News reported in its June Edition the Clinton Administration was preparing a plan to silence the militia movement after the 96' elections. Based on recent events taking place in Georgia, it appears the government is positioning itself to possibly implement their plan of action even *before* the November Presidential elections.

The Feds, using the same old ploy - instigated entrapment, (remember the gun deal the Feds concocted with Randy Weaver) has now charged a third member of the Georgia Republic Militia with 'Bomb Conspiracy' charges.

The militia member, Troy Allen Keyser, also known as Troy Spain, was informed the bomb conspiracy charges carried a maximum sentence of 17 to 21 years.

The Federal agent who testified against Keyser,

when asked by Keyser's lawyer, Gregory Spicer, whether there was any evidence his client was involved in a bomb making plot replied Keyser was present during discussions about bomb making. *That's not what I asked,* Spicer replied, to which agent Gillis answered *No, there is no evidence.*

Despite this admission by the Federal agent, U.S. District Court Judge Richard Hodge was reluctant to release Keyser on Bail.

What precipitated this entire charade were the arrest April 26, of Militia leaders Bob Starr and James McCranie on conspiracy to make pipe bomb charges. The same day Federal and local agents raided property owned by Starr and McCranie and seized pipes and chemicals the government claimed could be used to make bombs.

Federal agent Gillis also charged Keyser was in charge of a *Special Operations Team* assembled to assassinate politicians in Washington if the Feds ever took action against the militia. The indictment for these charges was issued even though the government had no taped evidence of this scenario ever taking place.

Agent Gillis admitted most of the indictable evidence was 'hearsay.'

Alabama Militia Leader Jeff Randall has publicly asked for experts in the fields of firearms and explosives to help in the upcoming Starr and McCranie case. Randall has established a legal defense fund for the expected costly trial. If one wishes to donate to this cause, send donations to Bob Starr defense Fund. C/o Jeff Randall, Rt. # 1, Box 182, Gallant, Alabama 35972.

The efficient planting of explosives by Federal agents on Starr's and McCranie's properties is an old time used methodology utilized by the FBI and BATF for decades now. Originality can never be attributed to Federal agents.

Many state militia leaders have made appearances in Georgia in support of the two militia leaders.

Recently there has been increasing Federal pressure on the Militia of Michigan also. In fact the entire Patriotic community is coming under increasing attack by the Feds.

Everything from public demonization to entrapment to seizure of Patriotic groups bank accounts is been employed by the government. Militia leaders are beginning to feel under attack by the Clinton Administration with open conflict a possibility.

## Feds, UN Troops Capture Atlanta

By: Marge Zinther

The Feds are Coming! The Feds are Coming! The UN is Coming! The Globalist Plantation Owners are Coming! Atlanta has, overnight, become the worlds Plantation Colony.

What is the new name for this Plantation Colony you ask? It is the former U.S. city of Atlanta; now officially world known as Olympic Village. (maybe *this* is what Hillary was referring to in her book "It Takes A Village")

The invasion has been underway for several weeks, designated operations *Guarding The Games and Olympus*.

Who is it invading Atlanta? 25,000 Federal Agents, 10,000 National Guard and Army Troops, 5,000 state and local law enforcement agents, 10,000 UN sponsored foreign troops and security agents, 10,000 private security guards and agents;

including 200 Israeli Mossad agents.

This is more security personnel than the U.S. has on the ground in Bosnia! Also, some 50 helicopters, utilizing 'global positioning technology' are available. Standing at the ready also are Armored Personnel Carriers and Tanks.

The unforeseen enemy ZOG is so afraid of? In their words; *Homegrown Terrorist* and this government thinks Patriots are paranoid.

Privacy eroding surveillance cameras are hidden everywhere. High technology identification systems are being employed, all *Alternative press* publications have been removed from Atlanta's streets and stores. (guess there is no use sending down copies of Colony News for the aids carrying international swim teams to read)

Atlanta is facing the largest security shutdown in American peacetime history. Under *Operation Olympus* 765 people whom police described as *criminally undesirable* were rounded up and will be detained until the close of the games.

Amazingly, 14 of those arrested were wanted for murder, and 57 wanted for rape and child molestation; which leads to the question: if police knew where to

arrest these people before the Olympics, why did they not arrest them previously to protect Atlanta's citizens?

Reportedly, AG Janet (child murdered) Reno was directing the federal effort herself. It has also been reported Reno is infatuated with the steroid filled bodies of the female athletes and is lending a personal *touch* to their comfort.

Atlanta FBI office director David Johnson said *We are most concerned with right-wing extremist groups*. A local Atlanta cop told Colony News on the side that the Federal invasion tactics were what he termed *Wacky*.

The only newspaper allowed in downtown Atlanta was the Atlanta Constipation Journal, as it is known locally. This suppression of Free Press rights is alarming, along with the introduction of UN troops and foreign intelligence operatives operating openly on U.S. soil.

Equally alarming is the freedoms and liberties the residents of Atlanta have sacrificed for the sake of the gay games. oops! I meant Olympic games.

Off site of Atlanta itself the Army has set up operational bases designed for chemical and biological warfare. Enjoy the Globalist games folks.

## Pittsburgh Invaded By Blackhawks-200 U.S. Troops

By: Richard Struthers

Between 10:30PM and 12:30AM on June 3, nine U.S. Army Blackhawks, six OH6 scouts and 200 troops from the Army Special Operations Command at Ft. Bragg, NC, and Ft. Campbell, KY descended on three areas of Pittsburgh, blazing automatic rifles with blank ammunition.

Lt. Col. Ken McGraw of Ft. Bragg described the event as an *urban environment* exercise. Col. McGraw added similar exercises have also conducted in Los Angeles, Dallas Miami and Detroit, although he admitted he was *surprised* at the number of complaints registered by Pittsburgh residents.

Additional exercise were scheduled to continue during the course of the week but were canceled due to the large number of angry citizens.

## Legitimacy Of U.S. Government Next Issue For Freemen

BY: Richard Struthers

Tranquillity has returned to Jordan, Mt. and it's surroundings after 81 days of standoff and negotiations cumulating in a peaceful finale.

The more important issue is upcoming, with what promises to be a lengthily and vocal public trial. Part of the negotiated settlement included Republican state legislator Karl Ohs's personal promise to guard the Ryder Truck full of evidence the Freemen plan to use against the government in the trial.

We at Colony News could not help but notice the significance of the Feds providing a *Yellow Ryder Truck* for the Freemen's evidence. Obviously this maneuver was a well conceived plan by the Feds to project a televised image to the American public subtly linking the Freemen with the truck supposedly

used in the Oklahoma City bombing.

The evidence includes computers, tapes, and file cabinets containing mountains of paper evidence proving the Freemen's legality. Whether the government actually allows the Freemen to introduce any of this as evidence remains to be seen. We doubt it. We are too aware of the duplicity of the Feds.

Ohs has said guarding the Freemen's evidence is the biggest responsibility of his life. Ohs issued this statement: *I have on this date (June 13) personally taken custody of all the common law court records as well as personal papers of the free inhabitants of Justus Township for security and safekeeping of the same.*

Ohs and the FBI give credit for a peaceful conclusion to Edwin Clark, who it is believed feared for his family's and fathers life.

The Freemen have already notified the court they wished to be represented by leader LeRoy Schweitzer, however, that request has been turned down.

The Freemen's legal case will rest on highlighting the Federal Reserve System's creation of illegal money from non-existent sources, the same system the Freemen have been arrested for. Interesting trial ahead.

## Satellite / Internet News

News For Readers Out Of Touch With The Electronic World

**The Communist State of New Jersey** implemented a plan to pay teens \$5.05 an hour to snitch on stores that sell cigarettes to underage minors. Nevermind in NJ any kid can purchase illegal drugs on any corner, at any time. The \$37 million Clinton Federal plan obviously is more focused on cigarette smoking than drug usage. Wonder Why?

**DisneyWorld** in Orlando, FL celebrated gay employees week in June. Disney, under the head of Israeli Michael Eisner, also provides benefits for the significant others of queers and dykes-but not for unmarried heterosexual couples. Eisner has destroyed the family value image of Disney Company through his promotion of faggot lifestyles and Touchstone Pictures.

DisneyWorld should be boycotted by all Americans as the Southern Baptist convention suggested.

**President Clinton** delivered this message to Congress on June 4, 1996. *As required by section 204 of the International Emergency Economic Powers Act and National Emergencies Act U.S.C. ## **HAARP Government Sponsored Devastating Weather?**

By: Michael Devlin

Weather has been on an abnormal rampage for several years. Old timers like to say its because of rockets being shot into space etc. I usually shrugged these theories off in the past with a laugh. But, after 4 months of deep research, and having been an amateur weather buff since the age of 10; actually maintaining a northeast weather diary the past 7 years; I have come to the conclusion the old timers may have been on to something. Examine these recent weather related events:

- Record 3 Foot snowfalls along the east coast
- Hundreds die from extreme heat in the upper Midwest and eastern seaboard
- Record breaking drought in the southwest are destroying the nation's food supply
- Ice storms of disaster proportions cripple the east coast
- Biblical proportion floods inundate the Midwest
- Floods, then drought decimate Texas
- A record number 20 Atlantic tropical storms form in 1995
- Earthquakes continually increase in number

These examples are but a few of the abnormalities affecting the Continental United States during the past decade. But these weather variation are not solely confined to the U.S., indeed the abnormal weather pattern exists worldwide. This article is divided into two sections; the first deals with the implementation of Tesla technology incorporated into the HAARP project, and it's potential and real effects upon the earth's ionosphere, weather patterns and the earth's inner crust itself. The second section explains the governments official description of the HAARP project and related subjects.

We ask our readers to read both and compare outside government descriptions with the governments version.

**HAARP**  
High Frequency Active Auroral Research  
Program  
(outside Govt. source description)

HAARP is a joint project of the US Navy, Air Force, DOD, and leading contractor Advanced Power Technologies Inc. (APTI), a subsidiary of E-Systems Inc., which is wholly owned by Raytheon Corp. The site is located in Gakona, Alaska.

HAARP has been portrayed as a research project which will investigate the aurora borealis but in reality is a military-industrial endeavor which will employ renegade Nicholas Tesla technology to alter the ionosphere in such a fashion as to tactically affect weather patterns, block all global communications and even effect planned earthquakes.

APTI holds a patent #4,686,605, which matches the HAARP proposal dealing with transmitting extremely large amounts of RF energy into the ionosphere. The patent claims it has the following uses:

*Cause total disruption of communications over a very large portion of the earth,*

*disrupting not only land-based communications, but also sea based, along with missile or aircraft destruction, deflection or confusion, weather modification... by altering solar absorption the ozone, nitrogen etc. could be artificially increased.*

This perversion of Tesla technology will most probably have dire side effects on every living thing in our entire biosphere and could conceivably lead to the destruction of the entire planet.

The Office of Naval Research describes the HAARP program as: *A beam that would be several degrees wide, depending on frequency, and thus would influence a region several miles in diameter in the lower ionosphere, expanding to several tens of miles in the upper ionosphere.*

To demonstrate the Globalist view of HAARP, and to improve joint electromagnetic weather-control actions, the US brought a number of Russian scientists to work at the top-secret Lawrence Livermore high-tech weapons laboratory.

Physicist Dr. Benard Eastlund, who stole Tesla's ideas, received a patent on 8-11-97 and assigned it to APTI on 9-6-87.

Dr. Eastlund stated his new invention *could be used to change weather by redirecting the very high wind patterns.* The invention uses an earth-based power source to create electromagnetic radio waves and focus them

way up into the atmosphere. Dr. Eastlund further says; *the invention could steer the jet stream, and could be used to disrupt communications all over the world.*

Among other things, the 1987 patent states *Large regions of the upper atmosphere could be lifted to an unexpected high altitude, modifying weather by altering upper air wind patterns.* This would be similar to the Russian Woodpecker EKF system.

*Essentially what would happen is a huge section of the HAARP charged atmosphere would be pushed upward and outward from earth by this electromagnetic force. You can, says Eastlund, virtually lift part of the upper atmosphere.*

Dr. Eastlund goes on to say: *By being able to intensify and control light, one could heat a specific part of the earth and learn to manipulate local wind patterns. By controlling local weather patterns, one could bring rain to Ethiopia or alter the summer storm patterns in the Caribbean.*

The most powerful pre-HAARP ELF ionosphere systems were constructed by the Soviet Union at sites in Sura, Goriky, Monchegorsk and Dushanbe. Western pre-HAARP heating systems are located in Tromso, Norway; Arecibo, Puerto Rico; near Fairbanks, Alaska and Platteville, Colorado.

These systems together with the Russian Woodpecker Tesla Magnifying Transmitters, have created a severe alteration of global weather patterns beginning in 1976, but intensifying through the 80's and 90's, as more ELF transmitters were constructed.

Strange skyglow anomalies and weird lightning and plasma-like effects have been seen all over the former USSR, near the Woodpecker transmitter sites. Similar plasma effects have been created by the US ionosphere zapping ELF transmitters, at the height of 1993's great Midwest flood. The University of Alaska discovered 'mysterious flashes of light that shot from the tops of storm clouds into the

upper atmosphere over the Midwest during the summer floods.

This sighting occurred when that area was being hit with giant standing-wave, long-lasting weather-blocking systems that were generated by a combination of the Russian Woodpecker ELF waves and the US GWEN Tower ULF waves.

In July, 1935 New York American magazine published an article stating: *Tesla's experiments in transmitting mechanical vibrations through the earth, called by him the art of telegeodynamics, were described by scientist as a controlled earthquake.* Many earthquakes the past 20 years have been accompanied by light flashes and may be attributed to ELF Tesla technology.

The Russian Woodpecker project is described in Russia in this manner: *Depending on the frequency, focusing, wave shape, etc. one can induce a variety of effects such as disturbances in the middle and upper atmosphere over the target area and anomalous weather effects. This is called the Tesla effect.*

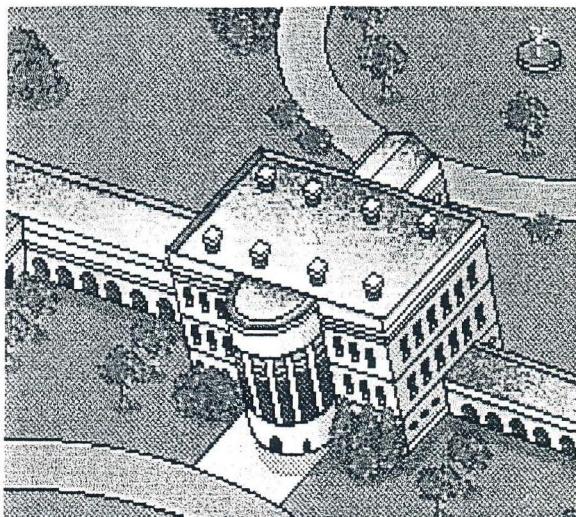

There are many dire forecasts of impending catastrophic floods, famines, storms etc. from many reputable sources. Some of which have already occurred. Space considerations do not allow us to print the whole story.

Section two, The Governments explanation of HAARP will continue in next months issue (August) of Colony News.

Colony News has produced an excellent, extensive, comprehensive Special Report on the HAARP project and it's ramifications, titled: ***HAARP: The Weather You May Not Survive.***

It may be obtained from Colony Press for \$12. By request accompanied by check, mo. or cash to Colony Press, 1977 N. Olden Ave, Suite # 230, Trenton, NJ 08618

Next month the Government disputes the weather control aspects of HAARP, but close examination of their explanations does correlate Tesla technology concerns.

## Clinton Obtained FBI Files For CIA, Mossad

BY: Patrick Dublin

Colony News has learned from informative sources in Washington, DC that the files the White House illegally obtained from Clinton appointee FBI Director Louis Freese were ordered for scrutiny by the CIA and Israeli's Mossad.

The files on prominent Americans, mostly Republicans, but not all, actually number many more than the 400 plus reported so far.

The CIA, under Israeli John Deutch, received the files from former Clinton crony Bernard Nesbaum. Deutch then allowed his real bosses, the Israeli counterpart to the CIA: the Mossad, to photocopy the files.

This is just another in a series of ongoing links between Clinton, the Mossad, and Deutch of the CIA. Israeli intelligence plans to utilize the information contained in the secretive files to assure Republican opposition to Clinton's re-election is muted. The plan is to distribute confidential information to Israeli owned Media and Press outlets should the election turn unexpectedly close. Clinton, the CIA and Mossad now reign over America. Meet King Bill the 1<sup>st</sup> of America all ye subjects.

## In Relation To Money And Currency, What Do The Terms Constitutional And Valid Mean, And Become?

*Article Submitted To Colony News By John Klima Of The Constitutional Bank & Trust Company Institute, Issaquah, WA*

An objective of this article is to explore the affects that our constitutional money and mutable currency (Federal Reserve Notes) have on the meanings of the terms constitutional and valid. Another objective is to determine whether lawful redress is possible for injuries caused by what are considered valid entitlement contracts sanctioned by the United States Supreme Court. Consider the following definitions:

**"Constitutional.** Consistent with the constitution; **authorized** by the constitution; **not conflicting with any provision of the constitution or fundamental law of the state.** Dependent upon a constitution, or secured or regulated by a constitution; as constitutional

monarchy, constitutional rights." *Black's Law Dictionary, 6<sup>th</sup> Edition.*

**"Valid.** Of binding force; legally sufficient or efficacious; authorized by law. Good or sufficient in point of law; efficacious; executed with the proper **formalities**; incapable of being rightfully overthrown or set aside; **sustainable and effective in law**, as distinguished from that which exists or took place in fact or appearance, but has not the requisites to enable it to be recognized and enforced by law. A deed, will, or other instrument, which has received all the **formalities** required by law, is said to be **valid**." *Black's Law Dictionary, 6<sup>th</sup> Edition.*

**"Formality.** The **conditions**, in regard to method, order, arrangement, use of technical expressions, performance of specific acts, etc., which are required by the law in the making of contracts or conveyances, or in the taking of legal proceeding, to insure their validity and regularity. Term generally refers to 'procedure' in contrast to 'substance.' *Black's Law Dictionary, 6<sup>th</sup> Edition.*

After 1933, the only **constitutional** circulating lawful monies were silver coins. **Valid** currencies for payment of state debts were bank and treasury notes, and silver certificates, all promising redemption in lawful money. After 1963, Congress ended redemption of Federal Reserve Notes for silver coins. Federal Reserve Notes were no longer **sustainable and effective in law** since without redemption they did not have the requisites to be recognized and enforced by law.

Recently received by this writer from the office of the Attorney General of Washington State is the case of *First National Bank of Black Hills v. Treadway*, 339 N.W. 2d.119 (S.D. 1983). The case was used to justify Federal Reserve Note equivalency to gold and silver coins in payment of State debts. The key sentence in the case is: "The mere utilization of standard of tender prescribed by Congress is not State action as prohibited in art.I, & 10;

it is an effectuation of **validly exercised Congressional power under art. I, & 8."**

This case refers to *Julliard v. Greenman*, 110 U.S. 421, 4 S.Ct. 122, 28 L.Ed. 204 (1884) as the constitutional authority for valid congressional power. In the summary of the case it states: ““Congress has the constitutional power to make the **treasury notes of the United States** a legal tender in payment of private debts, in time of peace as well as in time of war.” By using this citation, the South Dakota Supreme Court erred since **Congress does not have the power to make Federal Reserve Notes irredeemable for gold or silver coins legal tender for private debts.**

Consider the following:

**“Federal Reserve Notes. Form of currency issued by the Federal Reserve Banks** in the likeness of non-interest bearing promissory note payable to bearer on demand. The federal reserve note (e.g. one, five, ten, etc. dollar bill) is the most widely used paper currency. Such **have replaced silver and gold certificates which were backed by silver and gold.** Such reserve notes are direct obligations of the United States.” *Black's Law Dictionary, 6<sup>th</sup> Edition.*

“Congress, as the legislature of a sovereign nation, being expressly empowered by the Constitution ‘to lay and collect taxes, to pay the debts and provide for the common defence and general welfare of the United States,’ and ‘to borrow money on the verdict of the United States,’ and ‘to coin money and regulate the value thereof and of foreign coins,’ and being clearly authorized, as incidental to the exercise of those great powers, to emit bills of credit, to charter national banks, and provide a national currency for the whole people, in the form of coin, treasury notes, and national bank bills; and the power to make the notes of the government a legal tender in payment of private debts being one of the powers belonging to sovereignty in other civilized nations, and not expressly withheld from Congress by the

Constitution; we are irresistibly impelled to the conclusion that the impressing upon the **treasury notes of the United States** the quality of being legal tender in payment of **private debts** is an appropriate means, conducive and plainly adapted to the execution of the undoubted powers of Congress, consistent with the letter and spirit of the Constitution, and therefore, within the meaning of that instrument, ‘necessary and proper for carrying into execution the powers vested in this Constitution in the government of the United States.’

“Such being our conclusion in matter of law, the question whether at any particular time, in war or peace, the **exigency is such, by reason of unusual and pressing demands on the resources of the government, or of the inadequacy of the supply of gold and silver coin to furnish the currency needed for the uses of the government and of the people,** that it is, as matter of fact, wise and expedient to resort to this means, is a political question, to be determined by Congress when the question of exigency arises, and not a judicial question to be afterwards passed upon by the courts. To quote once more from the judgment in *McCulloch v. Maryland*: ‘Where the law is not prohibited, and is really calculated to effect any of the objects entrusted to the government, to undertake here to inquire into the degree of its necessity would be to pass the line which circumscribes the judicial department, and to tread on legislative ground.’” 4 Wheat. 423 *Julliard v. Greemen*, 110 U.S. 449, 450.

Nevertheless, without regard for their lack of redemption for silver coins and the *Julliard v. Greenman* case, Congress authorized all Federal Reserve Notes to be impressed with the statement: “This note is legal tender for all debts, public and private.” **Only as a contract between Congress and Fourteenth Amendment United States citizens for the privileged use of Federal Reserve Notes could it be considered a valid congressional**

**power.** Since the states' constitutionally guaranteed republican forms of governments are prohibited from impairing the obligations of contracts, the states adopted forms of governments alien to our constitutions so that they could receive and pay out Federal Reserve Notes. However, the contract lacks formality since it subverted the constitutionally guaranteed republican state governments,

Nevertheless, the United States Supreme Court continues to support the validity of the contract using its following self-imposed rules for avoiding constitutional questions.

1. The Court will not pass upon the constitutionality of legislation in a friendly, non adversary, proceeding, declining because to decide such questions "is legitimate only in the last resort, and as a necessity in the determination of real, earnest and vital controversy between individuals. It was never the thought that by means of a friendly suit, a party beaten in the legislature could transfer to the courts an inquiry as the constitutionality of the legislative act."

2. The Court will not "anticipate a question of constitutional law in advance of the necessity of deciding it."

3. The Courts will not "formulate a rule of constitutional law broader than is required by the precise facts to which it is to be applied."

4. The Court will not pass upon a constitutional question although properly presented by the record, if there is also some other ground upon which the case may be disposed of. This rule has found most varied application. **Thus, if a case can be decided on either of two grounds, one involving a constitutional question, the other a question of statutory construction or general law, the Court will decide on the latter.**

5. **The Court will not pass upon the validity of a statute upon the complaint**

## READER RESPONSE PAGES

of one who fails to show that he is injured by its operation.

6. **The Court will not pass upon the constitutionality of a statute at the instance of one who has availed himself of its benefits.**
7. "When the validity of an act of Congress is drawn in question, and even if a serious doubt of constitutionality is raised, it is the cardinal principle that this Court will first ascertain whether a construction of the statute is fairly possible by which the question may be avoided." *Ashwander v. Valley Authority*, 297 U.S. 288

Injuries suffered by Americans caused by the loan contract with the Federal reserve banks for Federal Reserve Notes and credits, should not continue unchallenged. A loan contract is like any other contract; the contracting parties must be able to perform unless prevented by law or acts of God. To be valid, the essence of formality of the loan contract must make it possible for United States citizens to discharge the due principal and interest. However, the existing national debt principal cannot be discharged, and remains a perpetual debt that continues to grow as borrowing needed to discharge deficit spending and due interest accumulate.

Our present national political debates include concerns about the onerous financial burdens that have accumulated on Americans and injuries caused by the national debt. One class of injury is reflected in the numbers of bankruptcies which for the twelve months ending June 30, 1995, amounted to more than 800,000 cases; this is ten times the number of cases in 1958. Poverty and lower living standards are other classes of injuries make more prevalent by diverted financial resources used to discharge the interest due for the national debt. These and other such injuries appear sufficient under rule 5 above to cause the United States Supreme Court to pass upon

the validity of the statutory loan contract for Federal Reserve Notes and credits. A class action suit seeking redress seems to be a possibility for those injured.

### **The Patriot**

*The Following Article Was Submitted To Colony News By Brian Mahoney, Domestic POW #34649-004, Box PMB, Atlanta, GA 30315 A-West (111)*

In the days after the Oklahoma City bombing, I watched, somewhat incensed, as the President of the United States delivered a speech at Michigan State University blaming AM Talk Radio hosts such as Rush Limbaugh and G.Gordon Liddy as well as the Patriot movement for the destruction of the A>P> Murrah Federal Building and the deaths of 169 Americans. The President said "an American can't hate his government and claim that he loves his country." He went on to say that "these so called Patriots who would have the destruction of his government are fueled by their hatred of all that is good in our land." Wrong Billy Boy! It is the corruption, waste, incompetence and the arrogant attitude of elected officials as well as their wives, and all government employees that fosters this sense of dissatisfaction among the American people.

The American Heritage Dictionary describes Patriot as "One who loves, supports and defends his country." It says nothing about love of the government. Men we commonly refer to as Patriots such as Jefferson, Payne, Hale, Henry Adams, Madison, Hamilton and Monroe all had great love for this country and a deep burning hatred for the tyrannical, corrupt government from which they desired to be free,

These men spoke many times after the victory of the American Revolution to the inherent evils and natural oppressiveness of government. They built into the Constitution certain safeguards such as the 2<sup>nd</sup> Amendment right to *Keep And Bear Arms*, so that "*We The People*" could control any centralized government, or overthrow it, in Jefferson's words, "*Every 20 years.*" We have been lax in our duties as Americans my friends.

Why is Bill Clinton so afraid of the so called Patriotic Movement? Why does he chastise men whose greatest crime is their love for country? Perhaps the answer lies in what it is that makes a man a Patriot. A man who answers to God instead of the state. A man who falls to his knees in praise of the Lord instead of bowing to the King who has no clothes. The making of a Patriot is written on ones heart before it shows itself in a persons actions. There is a natural love of fairness for all. There is a basic sense of respect for others, their property, their customs, their work, their beliefs.

Consider the mind set of our Founding Fathers: "*We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights.*" If these words do not sing in your heart, then my friend you are wasting your time by reading this.

A Patriot hates the unfairness and arbitrariness of big government. The chilling effect of governmental force at the point of a gun goes against every fiber in the Patriots being. The Patriot understands the plight of others around him. He knows what it is to work for his bread and instinctively shares what he has with others. He does this of his own accord. He *Does Not* steal from others under the illusion of taxation, and then play the hero by handing out some of his spoils on the needy.

The Patriot takes responsibility for his actions. He is a person who bears the cost of raising and educating his children. He does not put a gun to

the head of other citizens to collect monies to pay for those duties which he has undertaken. The Patriot cringes at the thought of property taxes. The idea of undermining the concept of true ownership by taxing what is "Owned", makes no sense to him at all. Such outrageous theft makes prisoners of us all within the homes for which we trade our life's labor.

If this stuff sounds alien, if it sounds weird, then I'd suggest that you are probably a government employee, bureaucrat, banker, public school teacher, or lawyer or perhaps you make your living standing in welfare lines filing government documents so that you feed yourself from the fruit of the labor of the Patriot. If however you feel compelled to agree with the above written text then join us. Take a stand for the love of Truth. Reach out and help those who desire Freedom. Take a stand and fight for what is ours. This land, this country, this America.....

*God Bless America... God Bless The Patriot!*

### Letters To The Editor

Dear Colony Press;

Thank you very, very much for the June Issue of your magazine.

Your magazine is a big hit with everyone I show it to. You are touching several here who know of the Patriot movement, but like so many, think it is a Right Wing Wacko or Extremist group. Your publication helps to bring the movement front and center for everyone to see. This will be an important battle to win in the near future if we are to win the hearts and minds of the people. Your magazine will go a long way in achieving those goals. I wish every American High School Junior or Senior could get his hands on the Colony News. The battle of the press must be fought and lost before bullets should be traded.

Dear Mr. Struthers;

In your May issue of Colony News, on page 18, you mention that militias in NJ are just about non-existent. Wrong! The NJ Militia is alive and well, with County militias in Mercer, Hudson, Middlesex, Passaic, Monmouth, Essex, Salem, Cumberland, and Ocean Counties. The co-founder of NJM, Bob Figueroa, is a resident of Trenton, just like Colony News. I'm surprised you did not know of this. Maybe an interview with NJM would bring you up to date with the movement in your own state.
